Proposal Document Date:	12 th June, 2023
Physical Address / Office Location:	Kijabe Street,Norfolk towers 1st flr P.O. Box 35351 – 00100, Nairobi, Kenya
Contact Person:	Paul Njoroge.
Telephone:	Cell – 0710563359

2 EXECUTIVE SUMMARY

Proposal Addressed to:	Procurement Department
Date of Financial Proposal:	
Subject of Approval:	Request for Approval of Matatu sacco ERP as a model for, Delivery, Installation, Implementation, and Commissioning of an Integrated Sacco solution.

We offer to provide the services described in the Statement of Requirements, in accordance with the terms and conditions stated in this technical proposal referenced above.

We undertake to abide by the Code of Ethical Conduct for Bidders and Providers during the procurement process and the execution of any resulting contract.

3 COMMENTS ON STATEMENT OF REQUIREMENTS

3.1 DATA SECURITY AND INTEGRITY OF DATA

The Sacco solution offered by TrimLine Solutions is compliant with international accepted standards for secure storage of data on servers and transmission of sensitive data over networks (username/ password, encrypting, biometric access etc.). The integrity of the database must be guaranteed against hacking, system corruption, and unauthorized manipulation. The system logs all security related events. e.g., security features passwords control, etc.

3.2 DISASTER RECOVERY STRATEGIES

The system allows for automated and manual backups over the network. Disaster recovery strategies for the database are provided comprehensively in the user manuals, this ensures that recovery and/or reconstitution of a corrupt or non-accessible database can be achieved in a minimum of time. e.g., backups, restoration process, etc.

3.3 SUPPORT

We provide initial start-up support to users of the system. As users get acquainted to the system new ideas or areas that might not have been analyzed earlier arise. We discuss advice and agree on tackling these new ideas. We evaluate any areas that might require further attention through help desk, e-mail, telephone, remote assistance over the Internet and on site visits.

4 COSTING STRUCTURE

4.1 Software

We, the undersigned, offer to provide the consulting services for the Supply, Delivery, Installation, Implementation, Integration and Commissioning of Sacco Solution on:

4.1.1 Implementation plus revenue share

Functional Components	Quantity	Unit Price	Total (Kshs)
- Members Management ✓ Creation of new members with approvals ✓ Addition of vehicles ✓ Reports	1	200,000.00	200,000.00
- Loans Management ✓ Loans products setup (interest rate, repayment frequency) ✓ Creation of new loans ✓ Loan/Sasra reports	1	150,000.00	150,000.00
- Collection Management ✓ Field users setup ✓ Smartphone collection app ✓ Realtime collections to the Core system	1	350,000.00	350,000.00
- Finance Management ✓ Chart of accounts ✓ Cash management ✓ Receipts ✓ Payments(Payment vouchers, petty cash) ✓ Reports(Trial balance, Balance sheet,P/L etc)	1	150,000.00	150,000.00
Sms sender id setup	1	50,000.00	50,000.00
Sms cost		1.00	
Sub TOTAL			850,000.00
Vat	16%		136,000.00
TOTAL			986,000.00
<u>Recurring Costs</u>			
Montly Server hosting	1	10,000.00	<u>10,000.00</u>
Sms	1	1.00	<u>1.00</u>
Annual Maintenance (Once per year)	20%		<u>170,000.00</u>
<u>Hardware Cost</u>			
Smart Phone	1	15,000.00	<u>15,000.00</u>
Bluetooth Printer	1	8,000.00	<u>8,000.00</u>
			<u>23,000.00</u>

4.2 Server setup

The application support server client environment. For field devices to work properly a stable network is required with a public Ip address. On premise setup the Ip address is preferred on the router to hide the Server, thus a port forwarding is required for traffic to reach the server.

There are two server Setup to choose from

4.2.1 On premise server

The following is required on this setup

Item	Item Detail	Specification	Cost (One off) KES	Monthly Cost KES
Server	Memory	16 GB and above	150,000.00	
	Hard Drive	500 GB and above. An SSD drive would be more Preferable		
	Processor	2 x Intel Xeon E5 2630v4		
Network	Bandwidth	1Mbps Up/Down, dedicated	20,000.00	15,000.00
Ups	Smart-ups 750va 230V		50,000.00	
Hot-site Backup				15,000.00
Total			220,000.00	30,000.00

4.2.2 Online Server

Item	Item Detail	Specification	Cost (One off) KES	Monthly Cost KES
Server	Memory	32 GB and above	0.00	10,000.00
	Hard Drive	500 GB SSD		
	Processor	2 x Intel Xeon E5 2630v4		
Network	Bandwidth	400 Mbps Up/Down , dedicated	0.00	
Ups			0.00	
Hot-site Backup			0.00	
Total				10,000.00

TRIMLINE SOLUTIONS PROFILE

4.3 WHO ARE WE?

At TrimLine we recognize the fact that quality software comes as a result of a quality Development Process. In view of this, we have implemented a Project Management Process through which quality is continuously monitored and ensured along the Software Development Cycle. Our solutions are thoroughly tested and are presented in a form convenient for the target users but with the details of their sophisticated information needs taken into consideration.

Our developers have an Education background with vast teaching experience and are in full control of the Software Development Process; this enables them to analyze and understand our customer's needs, which is paramount in facilitating delivery of user friendly and quality IT solutions that we set out to provide to our customers.
