Data Protection & Backup Policy

(For Data Collected via Mobile Applications)

1. Purpose

This policy ensures that all data collected through our mobile applications is **securely handled, stored, and backed up**, in compliance with applicable data protection laws and best practices.

2. Scope

This policy applies to:

- All data collected from users via our mobile applications.
- All staff, contractors, and third parties who have access to this data.
- All systems used for collection, transmission, storage, and backup of app data.

3. Data Protection Principles

We commit to the following principles:

1. **Lawfulness & Consent** – Data is collected only with the user’s knowledge and consent.
2. **Minimal Collection** – Only data necessary for service delivery is collected.
3. **Confidentiality** – Data is protected from unauthorized access.
4. **Integrity** – Data is protected against accidental loss or alteration.
5. **Availability** – Data is always accessible for authorized business use.

4. Data Security Measures

- **Collection:** Input validation, encryption of sensitive fields where applicable.
- **Transmission:** All app-to-server communication is encrypted via HTTPS/TLS.
- **Storage:**
 - Databases are encrypted at rest.
 - Access is restricted to authorized personnel via role-based controls.

- **Access Management:** Staff access is logged and regularly reviewed.

5. Backup & Recovery

- **Frequency:** Backups of all mobile app data are performed daily.
- **Redundancy:** Backups are stored in at least two secure locations (cloud/offsite).
- **Encryption:** All backup files are encrypted before storage.
- **Retention:** Backups are retained for a minimum of 90 days (configurable per client).
- **Testing:** Backup restoration tests are conducted quarterly to ensure reliability.
- **Disaster Recovery:** In case of data loss (e.g., cyberattack, system failure, accidental deletion), restoration from backup will be initiated within defined recovery timelines.

6. Compliance

This policy aligns with:

- **Kenya Data Protection Act (2019)**
- **General Data Protection Regulation (GDPR)** (where applicable)
- Industry best practices for data security and continuity.

7. Roles & Responsibilities

- **Data Protection Officer (DPO)** – Oversees compliance and responds to data subject requests.
- **IT/Systems Team** – Implements and monitors backup and recovery systems.
- **All Staff** – Must adhere to access rules and report incidents immediately.

8. Review & Updates

This policy will be reviewed **annually** or after major system changes to ensure continued compliance and effectiveness.
